

S.AL GROUP

The S.AL Group, founded in 1974, is a regional leader in the marketing of equipment and products for the construction and infrastructure sectors.

S.AL offers, through its subsidiaries, a wide range of products at top quality/price ratio, including plumbing products, sewage and waste systems, valves and fittings, pumps, energy and heating systems, fire-fighting systems, as well as swimming pool and leisure equipment. The uniqueness of the Group lies in its ability to provide its customers with comprehensive one-stop shop solutions, in close collaboration with world-leading manufacturers and distributors, together with complete professional advice, technical service and support.

The Group is ISO-9001 certified, and employs about 320 people throughout the country. Its turnover reaches more than 190 million USD per year.

Ownership

The group is owned by 2 private equity funds (Kedma Capital and Sky 3 Investment Management) and by its 3 founders.

About the Group

The S. AL Group is one of Israel's largest and leading group in the construction and infrastructure fields, primarily involved in representing overseas manufacturers, and supplying a wide range of complementary products. The Group markets and distributes equipment and products of more than 80 manufacturers from Europe, the US, and the Far East, and from leading local companies, providing the best products available in the world, with an emphasis on quality and competitive prices. The products that are imported are tested by the National Standards Institute.

The Group also offers, through its team of engineers and technical experts, a wide range of highly professional after-sales services, including consultancy, maintenance and technical support, as well as guarantees with terms and conditions usual to the local industry.
